Summary

I am a hardworking and reliable individual with experience in short-term government projects, media production, marketing, and digital systems management involving data entry, archiving, digitization, video editing, content creation, and website management. I have worked with RAJUK, the Bangladesh Election Commission, News Tv Bangla, and ST Group, where I handled sensitive documents and biometric data, edited and published news content, planned marketing campaigns, and managed WordPress-based digital systems. I am confident in working with data, maintaining accuracy, creating visual content, and supporting official and commercial tasks in an organized way. Skilled in Microsoft Office, Adobe Photoshop and Premiere Pro, WordPress content management system (CMS), design tools, social media platforms, Meta Business Suite, and AI tools, I adapt quickly to structured environments and meet tight deadlines. I am looking for a responsible, challenging, and rewarding position where I can apply my skills, learn continuously, and grow further while contributing to the success of the organization.
